EDUCATION

UCLA ANDERSON SCHOOL OF MANAGEMENT — Los Angeles, CA
M.B.A., Full-Time Program, 705 GMAT Focus (750 GMAT) — Jun 2028

- ***Honors:*** *Merit Fellowship; Selected Mentee, Center for Global Management Mentor Program*
- ***Leadership:*** *Director of Program Relations (Japan America Business Association)*
- ***Projects:*** *DisputeAI, human-in-the-loop AI classifier for bank dispute analysts, cutting 15-30 minute manual reviews to ≤15 seconds across 30 test disputes*

COLUMBIA UNIVERSITY — New York, NY
M.S. Computer Science, Machine Learning Specialization — Jun 2022

NATIONAL INSTITUTE OF TECHNOLOGY — Trichy, India
B.Tech. Honors, Computer Science, Economics Minor — Jun 2020

EXPERIENCE

VISA® — Atlanta, GA
Senior Software Engineer, Commercial Money Movement Solutions — Jul 2022 – Jul 2026

Product Strategy & Execution

- Launched Visa Accounts Receivable Manager (V-ARM), a B2B virtual card payments platform, translating issuing and acquiring bank requirements into integration contracts and APIs that enabled $17.8M in first-month transaction volume
- Protected V-ARM's launch by phasing features after identifying a 20% payment workflow throughput loss and parallelizing a one-month security remediation and delivering full capability within 3 months
- Unlocked V-ARM's European launch by rebuilding localization as a configuration-driven framework, cutting localization effort 50% and enabling 2 new markets with zero code changes

AI Product Development

- Cut BRD review time from 2 hours to 2 minutes for 5 Product and Engineering reviewers by designing 6 parallel AI agents built around the review bottlenecks they flagged
- Launched a repository-aware GenAI assistant addressing code-navigation and debugging bottlenecks, reaching 60+ developers and increasing deployment frequency by 25%

Product and Team Leadership

- Mentored 4 engineers in Visa Startup Bootcamp through product ideation, AI/payment-flow prototyping, and pitching, helping the team place 3rd among 20 teams globally

E3B DEPARTMENT, COLUMBIA UNIVERSITY | *Environmental science & policy program* — New York, NY
Graduate Research Assistant — Jun 2021 – May 2022

- Accelerated satellite imagery delivery by designing a configurable ingestion pipeline around researcher requirements and API constraints, processing 2 TB while increasing daily ETL throughput by 30%
- Automated manual Geographic Information Systems workflows to produce analysis-ready maps from overlapping satellite imagery, reducing researcher hours by 20% and freeing time for deforestation analysis

FLATWORLD SOLUTIONS | *Global automation, AI, and software consulting firm* — Bangalore, India
Analyst Intern — Oct 2020 – Dec 2020

- Reduced mortgage application processing time by 40% by automating data extraction with Amazon Textract and designing custom table parsing with human review for ambiguous fields

ADDITIONAL

- *Tools:* Jira, Figma, Claude Code, Google AI Studio, Cline, Jenkins, GitHub, Postman, Swagger/OpenAPI
- *Technical skills:* Python, Java, Spring Boot, Node.js, SQL, PostgreSQL, Docker, Kubernetes, Kafka, CI/CD, MCP, Claude Agent SDK, LangChain/LangGraph
- *Volunteer:* Organized donations and managed inventory at Lost-N-Found Youth Thrift Store; collaborated with Visa volunteers to distribute 19,259 lbs of food (16,048 meals) at Atlanta Community Food Bank
- *Languages:* English (professional), Bengali (native), Hindi (conversational), French (5 years studied, currently très rusty)
- *Interests:* Literary classics (Tolstoy, Dostoevsky & Camus); Stoicism (Marcus Aurelius & Seneca); Nolan & Guy Ritchie films; AI-optimized workouts; healthy recipe experiments
